ittext edittext

Someone has S5 / S7 software for Windows version 5 from ibhsoftec. I need this version with the GRAPH5 plugin. I want to use S5 as a graphical interface for the IBHSOFTEC and Graph5 library to access the database. I can not find the software on the Internet. I also can't find it in neither Microsoft,

nor in ibhsoftec. I also can't find the GRAPH5 plugin for S5 / S7. Can anyone help me? I did not find it in ibhsoftec. I found it in ibhsoftec, but it was created in 2011. I can't use it. Maybe someone can help me. I use S5 on Ubuntu and Windows. fffad4f19a
